

Responsive & Resilient AI for

RAISE

Autonomous Systems Engineering

Spring 2026 Seminar Series

12:30pm-1:30pm in ECE Room 118

**March
13**

Dr. Kyriakos Vamvoudakis | Georgia Tech
Bridging Models and Data: Enhancing Cyber-Physical System Security and Control

**April
3**

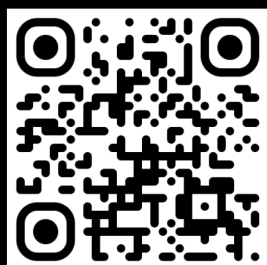

Dr. Leila Bridgeman | Duke University
Move Fast, but Don't Break Things: Safe and Robust Control for Reliable Autonomy

**April
17**

Dr. Andreas Malikopoulos | Cornell Univ.
At the Intersection of Learning and Control for Building Autonomous Teams

**May
1**

Dr. Jun Liu | University of Waterloo
Physics-Informed Neural Certificates for Stability and Control
[Room location TBD]
